OGP Metadata Working Group

Metadata Standards

- Federal Geographic Data Committee –
Content Standard for Digital Geospatial Metadata (FGDC
CSDGM) Version 2.0, 1998
- ISO : Geographic Information – Metadata
19115:2003 / 19139 / 19110 / 191* – North American Profile
- MARC21 – Library cataloging standard
- MODS
- Dublin Core / DCLite4G
- Many other possibilities ...

Critical Elements for Discovery and Identification

- Title
- Spatial extent – bounding box coordinates
- Originator(s)
- Publisher
- Date
- Keywords – theme & place
- Data type
- Access restriction
- Host repository
- Online location

OGP Solr Schema

- XML-based, layer-level description
- Indexes the critical discovery elements
- Stores original metadata for display/delivery

<https://code.google.com/p/opengeoportal/wiki/Solr>

Critical Elements for Dataset Use

- Abstract / purpose of dataset
- Terms of use
- Spatial references - coord system / projection
- Spatial data organization – vector type / features; raster type / resolution
- Source information – citation, scale, date, contribution
- Data quality information (if available) – accuracy and completeness
- Process steps
- Attribute definitions

Metadata Creation Workflow

- Gather existing metadata / documentation / code books related to dataset
- Create/apply metadata templates
esp. for series-type data or for institutionally appropriate information
- Layer-level description in XML using local standards
 - e.g. title, abstract, access, keyword thesauri, local processing steps, etc.

Metadata Creation Workflow pt. II

- Quality control / quality assurance / XML validation
- Load metadata into OGP

Metadata Authoring Tools

- Combination of ArcCatalog, Extensions, & text/xml editors
- Overview of OGP contributors' md practices:
<http://tiny.cc/4asv7w> [google doc]
- OGP Metadata Toolkit
 - Subset of critical elements
 - Guided metadata creation
 - Search and re-use existing metadata
 - Transform between metadata standards

Metadata Working Group (MWG)

- Membership, Governance,
Notes from National Summit
<http://opengeoportal.org/working-groups/metadata/>
- Communication on the general OGP listserv
<http://opengeoportal.org/listservs/>
- Voting members to meet quarterly virtually—
membership is voluntary & open

MWG Initiatives

- Best practices and standards documentation
 - Spatial metadata, FGDC, ISO, MARC, MODS, guide for vendors/data providers
- Thesaurus & controlled vocabularies
- Metadata creation coordination :
 - Tracking Sheet: <http://tiny.cc/fr4q6w>
 - Tracking Guide: <http://tiny.cc/572j6w>
- Metadata registry : <http://tiny.cc/r44q6w>
- MWG Action Item tracking : <http://tiny.cc/p73u6w>

OGP Metadata Resources

- Metadata Creation Guide
<http://opengeoportal.org/working-groups/metadata/metadata-creation-guide/>
- Metadata Creation Resources
<http://opengeoportal.org/working-groups/metadata/metadata-resources/>
- OGP listserv

Future enhancements with User-generated data and metadata

- User ratings + use statistics + co-occurrence of downloads = data recommendations
- User comments
How did you use the data? What were the limitations/results?
- Data consumers into data creators/catalogers
Metadata toolkit for data creators

Questions? Discussion ...
